

A TIP FROM A
**FORMER
SMOKER**

**HIV alone
didn't cause the
clogged artery
in my neck.
Smoking with
HIV did.**

Brian, age 45, California

Brian had his HIV under control with medication. But smoking with HIV caused him to have serious health problems, including a stroke, a blood clot in his lungs and surgery on an artery in his neck. Smoking makes living with HIV much worse. You can quit.
